# WASHINGTON BI-CENTENNIAL

An elaborate Washington bi-centennial pageant was given Friday, February 26, by the schools of Adams township in the Markleville High School Gymnasium.

The members of the committee in charge were: Olive M. Haines, Hildred Mauzy, Edith McClung, Harold Creason, Lois Cooper, and Marie H. McCarty.

Everyone except those in the living flag were compelled to dress in Colonial costumes. Mr. Walker left the shock for the last minute and waited until noon to don the Colonial paraphernalia.

The Gymnasium was decorated with flags, buntings, and pictures of George Washington. It was artificially lighted to give an effect to the proceedings.

The afternoon was spent portraying various events in the life of George Washington. Harper Rector and Maurine Rosenfeld played the roles of George and Martha.

A huge temporary bleacher was erected over the northeast bleacher for the purpose of presenting the living flag. The children from the third to the eighth grades, inclusive, over the township were in it. There were three hundred in all. They were dressed in red, white and blue to give the flag its color. In the field of blue thirteen of the children wore large stars on their heads to represent the thirteen Colonies of that time.

Music was furnished by the High School orchestra and Mr. Merle Majors. Several patriotic songs were sung by the Glee clubs.

Elizabeth Garris, dressed as a negro mammy sang "Mighty Lak A Rose" to Washington in his cradle.

Other events were:

The Minute Men were imitated by the boys' Physical Training classes.

A touching scene was presented, showing Washington and his men at Valley Forge, in the dead of winter.

Betsy Ross told how she made the flag and presented it to Washington in an interesting scene.

Washington was shown when he took the oath of office, which was administered by Chief Justice John Jay.

Washington gave his Farewell Address.

The Grand Finale came next and after it while all participants were circled around the Gymnasium, twelve girls danced the Virginia Reel.

The program was given in place of the Operetta which is regularly given each year by the High School under the direction of Mrs. McCarty.

The special scenes on the ocean and at Valley Forge were painted by Mrs. McCarty.

All of the seats in the Gymnasium were occupied by spectators. It was a great success—thanks to fine cooperation of the students, teachers, and parents.

# HIGH SCHOOL HUMOR

*Physics Class—*
Miss Harness—There is much less energy down low than there is up high.
Paul Campbell—I was wondering what was wrong with me.

---

(*Talking about sound in Physics class*)
Paul C.—Wouldn't it be sound if a hammer fell off of a tall building and hit somebody, because I heard about a guy who was working on a tall building and he dropped a hammer on Saturday. As he was going to work the following Tuesday the same hammer hit him on the head.

---

Ella Florence Noland came to Physics class one day with her dress on backwards and she asked Miss Harness if she could be excused long enough to change it.

---

We were drawing pictures of an automobile engine in Physics Lab. Martha McClead saw the flywheel and asked, "Is that the steering wheel?"

---

One day Meredith Sparks got too noisy in Physics class and Miss H. made him sit down and stay there until the bell rang. He asked Robert Collier to go his bail.

---

Davis Williams was playing with a mouse trap in Physics Lab. He threw it and told the class that he had the mouse but it got away.

---

Harness—Davis you may read and explain the 14th problem.
L. D. W.—The Eiffel Tower is 1,000 ft. high. Hey! that's wrong.
H.—Why?
L. D. W.—Because it's only 984 ft. high.

---

We were talking about the different kinds of glass in Physics class. After a while Maurine Rosenfeld asked, "What kind are you talking about, 'shadder' proof or shatter proof?"

---

Miss Harness—Stars twinkle because heavenly bodies pass between us and them.
D. W.—Well if the stars are that large it would take a big angel to cover one star.

---

Miss Harness—Scientists claim that Indiana has moved 500 mi. south, and this is what is causing our unusually warm weather.
Arthur Hudson—I wonder when the new maps are published if they will show Indiana down where Tennessee is now?

---

Alberta—You can distinguish stars from other heavenly bodies because they twinkle.
Meredith—Well I've seen stars that didn't twinkle.

---

*Commercial Geography—*
Mr. Anderson—Name some plants that have sugar in them.
D. Williams—Well, there's onions, parsnips, and turnips.
Mr. A.—Do you think of any more Howard?
Howard F.—Yes, there's sweet peas.

---

(*Talking about the fish industry in Com. Geog.*)
H. J. A.—Why is the water shallow up around Newfoundland?
Davis—Because it isn't so far to the bottom.

---

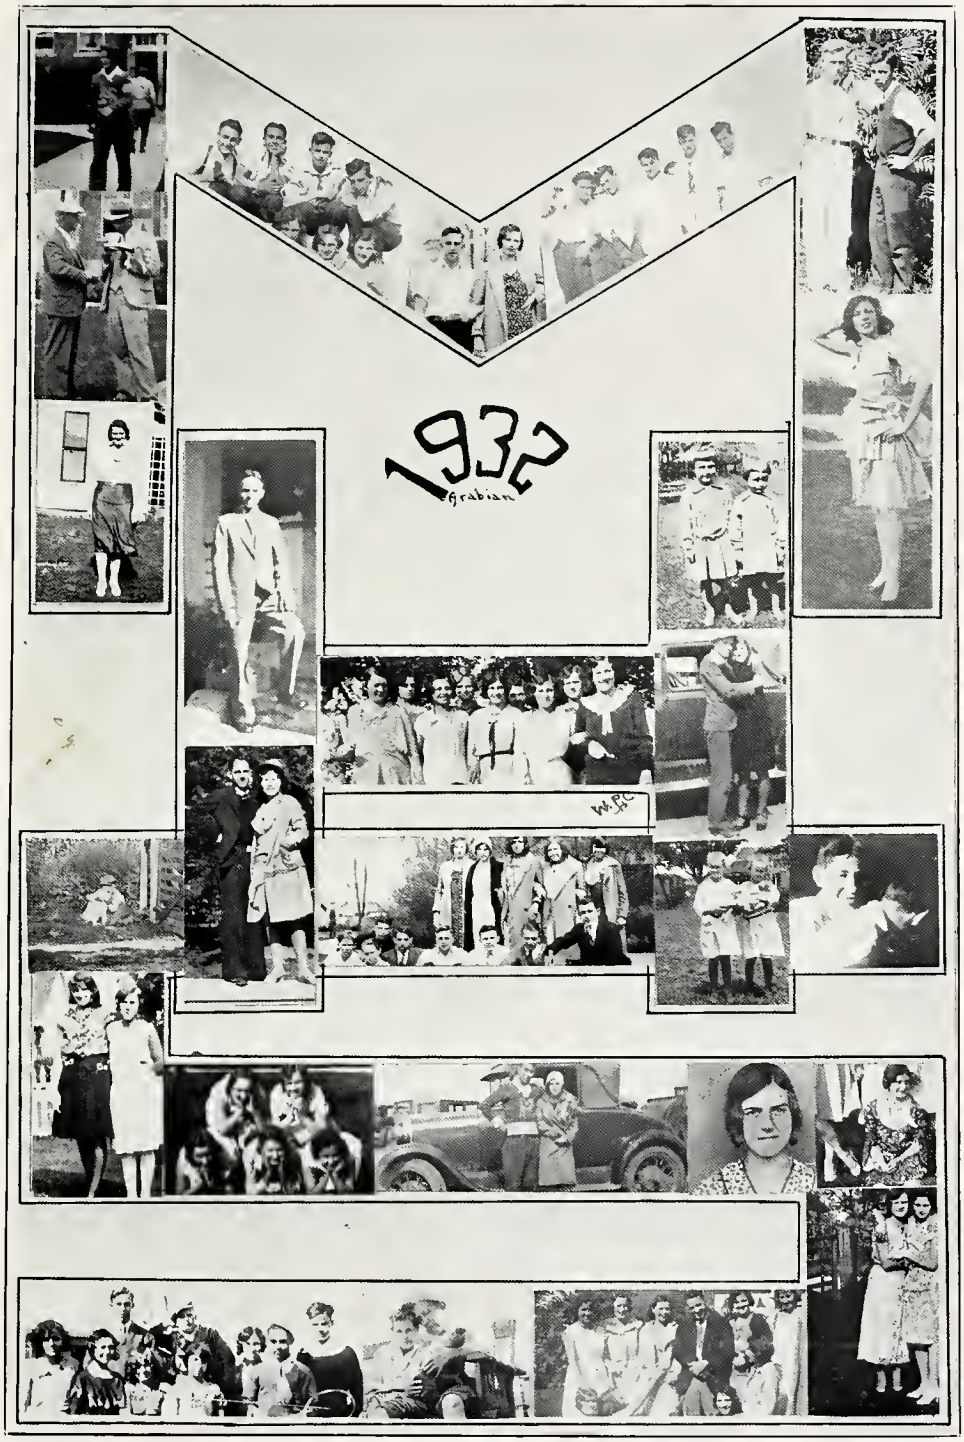

H. J. Anderson—Where would you rather go if you didn't have a home, Belgium or Canada, Paul?
P. W. C.—I would rather go to Canada, because you could shoot rabbits for food.
L. D. W.—How would you shoot them?
M. H. S.—With nigger-flippers, I suppose.

---

(Arthur Hudson went to sleep in C. Geog. class. Mr. Anderson saw him and said): Arthur, you are excused.
A. F. H.—That is very nice of you.

E. F.

# CLASS PROPHECY

Hello folks of the Radio audience. This is Davis Williams, speaking to you from the main floor of the Greater Williams Building in Ovid. Folks, in my speech tonight, I want to take you on a little imaginary journey to locate the members of the class of '32 of Markleville High School.

Now to start on our journey, we go first to Japan and find Margaret Stickler trying to influence the natives to her belief of good government. Next we find Robert Collier working for an American lumber company in Siberia. One of his helpers is Richard Mace. We mustn't forget to visit Germany for Paul Campbell is directing a great opera performance in Berlin. His two greatest finds are Thelma Dudley and Charles Guenther. The latter went back to Germany after graduating from M. H. S. in '32.

Arthur Hudson is well-known to the people in Switzerland where he is working in his largest laboratory. He is experimenting with chemistry.

Now as we sail back across the Atlantic you had better watch for Harper Rector. He gained world-wide fame in that war with Japan in 1939 by controlling one of those new rocket planes. Well we are just in sight of New York now and you can see the big 150-story hat shop of the McClead girls. I guess they are making plenty of money.

Let's imagine we are at the speedway in Buffalo. Whew! Look at that racer take that curve. Well, maybe he'll get around O. K. if—well it's our old friend Meredith Sparks.

Now for you ladies, whenever you are in Pittsburgh be sure and stop at Maurine Rosenfeld's new beauty parlor. Just across the street is the fine McCallister Cafe and it sure is a swell place to eat. New Jersey is the next stop. Helen Williams is doing her best among all women to enforce the liquor law. Dorothy Crosthwaite has found the occupation of her dreams. She is at the head of a great model clothing store in Trenton, N. J.

We all remember what Robert Cooper said. Well he's just a plain good moneymaker on a farm west of Noblesville, Ind.

Can you listen a little longer folks while we visit the new industrial art school in Indianapolis? Here we find that Sarah Mitchell has established a fine school for pupils interested in art. Does everyone remember that Ella Florence Noland was a very good musician in her school days? Now she plays the pipe organ at the Indiana theatre in Indianapolis. I'm sure you will be invited to visit the Reform School at Terre Haute where Evelyn Fort is matron.

I want you all to visit Catherine Shelton at Springfield, Ill. She is a very good Domestic Science teacher at the University of Illinois.

Now we see that Cathern Hayden is director of good swimming at Long Beach, Calif. We find Wilma Hoppes very busy planning an industry of her own in Oklahoma. She is trying to find a substitute for face powder. Since most of the population of today is female it takes a lot of powder for us, she says.

Helen Markle, after a series of narrow escapes from disease, became a nurse. She has proven herself worthy of her country by finding remedies and cures for many diseases. She has a hospital at Emporia, Ind.

Well folks, our journey has come to an end. I wish you all a lot of success and a happy future. So I'll be with you next Wednesday night at the same hour. Good-night.

D. W.

# SCHOOL FUNCTIONS

Our first class party was held September 18 at the home of Wilma Hoppes. The evening was spent in making ice cream and in dancing. The chief entertainer for the evening was Charles Guenther.

On October 2, Cathern Hayden entertained the faculty and the Seniors at her home. Contests and dancing were enjoyed. Refreshments of ice cream and cake were served.

November 14, we held a skating party in the Armory at Anderson. It was well attended.

A Christmas party was held on December 19, at Helen Markle's. Gifts were exchanged and each member of the class was presented a picture of our sponsor, Mr. Walker. Maurine Rosenfeld and Helen Williams were winners of prizes. Evidently Mr. Walker enjoyed the canary most of all.

The Juniors have enjoyed a number of parties this year. A Hallowe'en party was held at Lucile Moneyhun's and a public Hallowe'en carnival was sponsored by the class. Other class parties were held at Mary Catherine Markle's, Elizabeth Garris', Kenneth Walter's, and a hamburger fry was enjoyed at Falls Park, Pendleton. Murdock the magician was presented to the public by the class.

The Sophomore class parties held were: A weiner roast at George Smith's; one at Ruth Hoppes', where ice cream was made and games were played. During October the initiation party was held for the Freshmen in the Gym. The Freshies were treated pretty good!

The Freshmen held their first party at the home of Ruth Cooper in September, where a weinie roast was enjoyed. In October Celanire Creason entertained the class with a Hallowe'en party. The next month George R. Pendleton was host, and in March a party was enjoyed at Hilda Eckhardt's.

# H. S. ASSEMBLY PROGRAMS

At the beginning of the year a new idea was started, which has been enjoyed throughout the year, of having a program arranged by members of the four high school classes, to be given on each Tuesday. Later it was changed to the first and third Tuesdays. It was thought that more of the patrons would attend if something special was given, therefore all were invited.

The first program was arranged by the Seniors on September 15. The program consisted of an instrumental duet and a very interesting talk by Rev. Clausen McKim of Pendleton.

On September 22, the Juniors prepared the second program. A vocal duet and an instrumental number were given. The topic of the speaker Judge Lawrence Mays was "Mountain Peaks."

The Sophomores planned the program for October 6. A vocal duet and solo were given. The speaker, Rev. Blythe Whealey, local Methodist minister, used for his subject "Grandstand Players."

The initial program to be sponsored by the Freshmen was presented on November 3. A cornet solo and a piano duet were given. The speaker of the afternoon was Rev. Floyd Seelig of Anderson. He lectured on his foreign travels and displayed a collection of foreign articles which won much attention.

On Armistice Day, November 11, a joint program was given. As an opening number the entire school sang. The Senior boys' quartet gave several special numbers, adding to the interest by appearing in soldier's costume. Some readings and duets were given. Drills and musical numbers were given by the grades. "Taps" was sounded at 11 o'clock and after a minute of silence all joined in giving the Pledge of Allegiance.

The Seniors again prepared the program on November 17. We were favored with several special musical numbers by Wilbur Crosley and his buddy. City Judge Ralph Daly of Anderson, gave an interesting address.

December 1, was Junior day. Vocal and musical numbers were presented by the Primary room, and Principal Floyd Hines of Eden high school made an excellent talk.

An entertainment was furnished by the Sophomores on December 15. The Sophomore mixed sextette sang several Christmas carols. Rev. Byrkett of Shirley was the speaker for the afternoon.

After some delay, because of the inability of the chosen speaker to be present, the Freshmen presented their program: a piano solo was rendered and then Trustee J. Wesley Stewart of Anderson township addressed the assembly.

Probably the most general program of the year was presented on January 19, in honor of the present and past Trustees of Adams township. The purpose was to honor them for the wonderful effort they have each displayed in the building of our splendid school system. Those present were F. M. Williams, trustee in the '80s; Dr. C. B. Pendleton, 1909-15; Edward Lewis, 1915-19; Dr. D. N. Conner, 1919-23; Arthur Williams, 1923-27; and the present trustee, Walter Hays, 1927—. Other living trustees who were absent were Joe Rector and Al. Fatic. Each of the trustees responded with a short talk concerning the time when they were in office. The H. S. Orchestra played. Both the Boys' and the Girls' Glee clubs sang special numbers. Readings were given by Helen Williams and Paul Campbell. A vocal duet was sung by Thelma Dudley and Cathern Hayden. A history of the school was read by Margaret Stickler, and the speaker for the occasion was Treasurer Walter Jones of Madison county. A packed house was present at the assembly for this auspicious occasion.

Because of the necessity of spending so much time in practicing for the oncoming Washington Bi-Centennial program, assembly programs were temporarily discontinued. They were resumed in the latter part of the year. C. S.

# COACH

HAROLD J. ANDERSON (R.)

"Hanley" certainly deserves a lot of credit for the team produced this year. He not only knows basket ball, but he can put it across.

PAUL CAMPBELL (L.)

"Gravy" worked hard getting yells this year. The fans weren't as responsive as they could have been, but "Gravy" did a good job of trying.

WARD BORAM (C.)

"Doc" was sweat wiper this year, and a good one he made too. He worked hard during the season and the squad appreciated it.

# THE ARABIANS

*The "Arabians" had the stiffest schedule in the history of the school this season, but finished with flying colors, winning eight of the last nine scheduled games, thus indicating Mr. Anderson's real ability as a coach.*

HUDSON—"ART"

our big six-foot center who got the tip from them all. A great defensive man from the first, he developed into one of our best on offense. It was shown by getting 18 points in the sectional. He's a Senior.

RECTOR—"REC"

the high point man is our scrappy forward we lose this year. He was a hard fighter for us and was a consistent point-getter. His good following in and terrific charging placed several games on ice for the Arabians.

COLLIER—"PAPAW"

was our Captain as well as our flashy floor-guard. He's an Arabian veteran of four years and was selected twice on the "All-Tourney" team. His good sportsmanship and his determined fighting spirit will certainly be missed next year.

PADGETT—"Pete"

our husky little forward is always striving to keep us on top. He plays a very excellent aggressive game. He has been with us two years and has two more. We wonder what he'll be then—we hope a "Star."

WILLIAMS—"DAVE"

though not husky, Dave gained the back-guard position through sheer hard work. He retained the ball for the Arabians and helped them win. His name was in the "Special Mention" on the All-Tourney team. He's another Senior.

MILLS—"CARL"

is extremely hard to guard and is a good offensive man. By his good training and serious work he has gained a reliable position as an excellent guard. He will be with us next year—keep your eye on him!

BOND—"DIRT"

we are hoping that "Dirt," with his ability to shoot and activeness to elude his guard, will help place Markleville on the map in capital letters, as he has another year to fight for the Arabians. He is an excellent jumper.

COOPER—"POSEY"

was a recruit from the second team. His hard playing merited his advancement to the first team. He has displayed his ability to get the tip on numerous occasions. He always did his work to the best of his ability. Another Senior.

GUENTHER—"POP-EYE"

our tall rangy forward helped build up our squad. He showed his scoring ability in the Fortville game by making ten points. This is his third year with the Arabians and his fun will be missed next year.

MAIN—"YONK"

who helped win several of our second team games, has proven worthy of a position as guard on the team. With his accurate long shots, we are expecting him to help build up a good team next year as he is only a Junior.

# HIGH SCHOOL HUMOR

Johnny Scothorn, a little boy down in the grades, had been in St. John's hospital at Anderson and he had just got back to school. Mr. Walker asked him how he liked it.
Johnny—I didn't like it.
Paul C.—Did they give you fish every Friday?
Johnny—No, but they gave us ice cream every Sunday.

---

Mr. Anderson—There is no part greater than the whole.
Paul Campbell—How about the dough-nut?

---

*Commercial Geography*—
Harold—Arthur name an important glass plant in the United States.
Hudson—Lapel.

---

H. Anderson—Name an important R. R. in Indiana.
A. F. H.—Midland.

---

Mr. Anderson (at beginning of monthly test)—Give a comprehensive summary of all that we have had this month.
Meredith—What does comprehensive mean?
Paul—Aw, that's a big word Webster never even heard tell of.

---

*Freshmen Vocational Civics*—
Norma W.—Were we supposed to locate Indianapolis on this map?
F. T. W.—No, this is a Madison county map.
N. W.—She (Sarah Jane Hartzell) has it on her map.
(In same class) Taylor Tupps—Is the population of Markleville 2,500?

---

Talking about goals, Robert Collier's goal is either Detroit or the North Curve, but he is too stubborn to admit it.

---

(*Sociology class, discussing the instincts of lower animals*)—
F. T. W.—What makes a dog go around in a circle before he lies down?
Davis W.—Because he can't turn around after he gets down.

---

Miss Harness (in Algebra class)—Helen, you may put the 8th problem on the board.
Helen McC—I left my problems at home.

---

Miss McClung—What prominent man from the U. S. has gone to Manchuria where that war is going on?
M. S.—Will Rogers.
Harper Rector—Hoot Gibson (meaning Floyd Gibbons).

---

Mr. Walker—What class of people do the most meanness?
Robert Collier—Negroes.
F. T. W.—A negro's fingers are sticky.
Harper R.—That is caused by working in the sugar cane.

---

A. L. H.—Where does the best grade of cotton come from Helen?
Helen M.—From Angora sheep.

---

Prin. W.—What are the qualifications for the Treasurer of Madison county?
R. E. C.—Be a Democrat.

---

Somebody stuck Byron K. with a pin and of course he yelled. Then there was a lecture by Miss Harness. Now Byron I am positive there was no need for all that unnecessary yelling.
Funny—Well somebody stuck me.
A. L. H.—The next time that occurs you may go to the assembly.
B. K.—Well, I suppose I'll be just as well off in there as in here.

---

Mr. Anderson—Cerebro spinal fluid is a fluid between two outside coverings of the brain. Howard, can you give its functions?
H. Feslar—To oil the hair.
Mr. A.—Partly right. Charles Guenther, what is it?
C. F. G.—To oil the brains so they won't rattle.
H. J. A.—Right.

M. H. S.
